

Knightdale Station

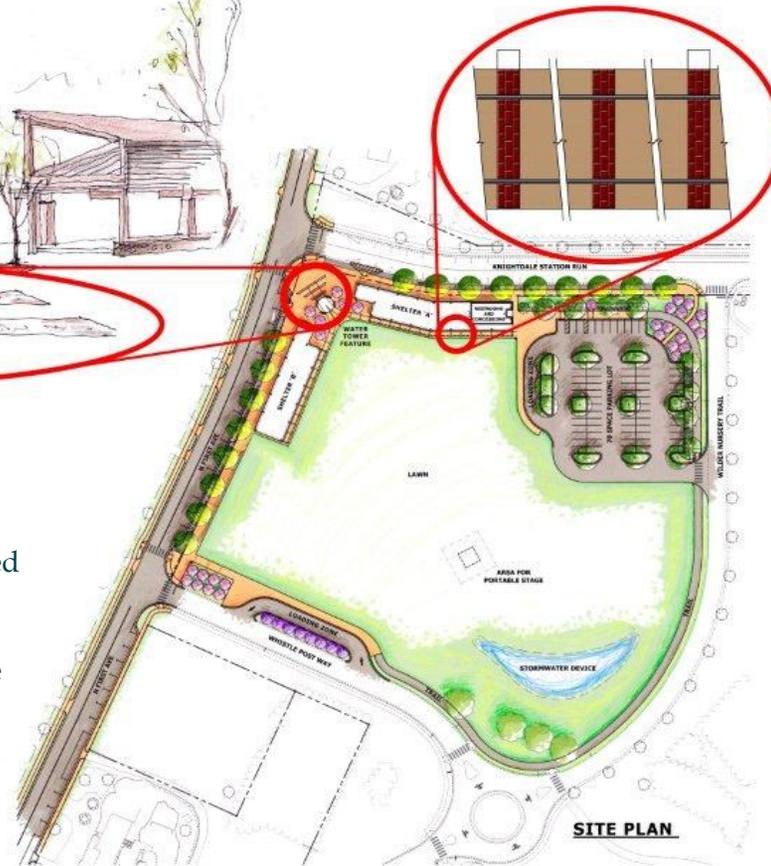

Honor, commemorate, recognize

For many years, the 71-acre site was farmed and operated as a nursery. The design of the new park reflects the previous agricultural and horticultural uses of the site along with the railroad history of the Town.

Phase one features fields for active recreation, a destination playground, multi-purpose trails, scout camping site and an off-leash dog park.

Phase two of the park will encompass the 7-acre northwest quadrant of the 71-acres and enhance the passive recreation experiences of the park. A railroad inspired water tower misting station, two multi-purpose shelters, and a stage on a graded amphitheater provide opportunities for civic events, community functions, arts festivals and special events.

See opposite side for brick paver program ordering details.

Location for brick pavers shown above. The Town will determine the location of the pavers based on the number sold at the time of installation.
