

The Town of Knightdale is accepting applications for **STORMWATER INTERN**

The Town of Knightdale is seeking a detail-oriented student to serve as a Stormwater Intern within the Public Works Department. This position assists with stormwater inspections, compliance documentation, GIS mapping, and data entry in support of the Town's NPDES MS4 permit and Stormwater Management Plan.

The Stormwater Intern will gain hands-on experience working both in the field and in an office setting, supporting inspections of stormwater infrastructure, development sites, and privately owned stormwater control measures. The role also includes interacting with staff and the public while assisting with regulatory reporting and educational outreach.

This internship provides practical experience in municipal stormwater management and environmental compliance. Students currently enrolled in engineering, environmental science, construction management, or a related program are encouraged to apply.

Hiring Compensation: \$17.79 Hourly
