15.26. “Z” Definitions

- A. **Zero Lot Line.** A development approach in which a building is sited on one (1) or more lot lines with no yard. Conceivably, three (3) of the four (4) sides of the building could be on the lot lines. The intent is to allow more flexibility in site design and to increase the amount of usable open space on the lot. Virtually all zoning ordinances retain yard requirements; where zero lot line developments have been permitted, they have been handled through group development procedures, or other processes which allow for site plan review. The few ordinances which specifically authorize the zero lot line approach do so as an exception to prevailing regulations and under clearly defined circumstances. In Knightdale, GR, UR, RMX, NMX, TC and HB districts allow for zero lot line development.
- B. **Zoning.** A police power measure, enacted via ordinance and including both text and a map by general purpose units of local government, in which the community is divided into districts or zones within which permitted and special uses are established, as well as regulations governing lot size,

building bulk, placement and other development standards. Zoning requirements vary from district to district.

C. **Zoning Amendment.** An amendment to or a change in the zoning ordinance. An amendment can take three (3) forms:

1. a comprehensive revision or modification of the zoning text and map; or
2. a text change in zone requirements; or
3. a change in the map, i.e., the zoning designation of a particular parcel or parcels.

Zoning amendments, like enactment of the original ordinance, are legislative acts that cannot be delegated to administrative officials. According to state law, planning boards make recommendations and town councils approve or deny zoning amendments.

C. **Zoning District.** A section of a town designated in the zoning ordinance text and delineated on the zoning map, in which requirements for the use of land and building and development standards are prescribed.

D. **Zoning Map.** The map delineating the boundaries of zoning districts which, along with the zoning text, comprises the zoning ordinance.
